

**INTRODUCING!**

# A Cut Above The Rest!

## The RotoBrute™ RS725 Professional Metal Cutting Saw

**Bonus Offer - Each RS725 includes:**  
A free saw blade, and a shop hardened  
molded carrying case.  
(\$100.00 Retail Value)

*A complete metal cutting system engineered to cut the most difficult materials; angle iron, "C" channel, pipe, steel plate and stainless steel.*

- **Improved Safety** - Portable, powerful, lightweight circular saw specially designed to cut copper, brass, aluminum, steel and wood without sparks, burs or flying chips.
- **Lower Cost** - Ergonomically designed saw and material matched blades deliver more cuts per blade at a lower cost per cut than any other brand.

Blade Size:	7-1/4"
Arbor Size:	20mm
No Load Speed:	3500 RPM
Max. Cutting Depth:	2-1/4"
Cutting Thickness:	3/8" (steel plate)*

*\*Under proper operating conditions more extreme cuts of up to 1" are possible.*

RS736F Ferrous    RS748SS Stainless Steel    RS736W Wood

RS754NF Non Ferrous    RS740F Ferrous Extra Heavy Duty

# Cut Cool...Cut Quick!

## The Alternative To Abrasive Wheels and Torch Cutting

Get an edge on achieving high performance results by using genuine RotoBrute saw blades and wax lubricant. RotoBrute blades are engineered to handle with ease difficult-to-cut materials such as steel plate, pipe flanges, rebar, angle iron, flat stock and nail-embedded wood. Each blade is hand-tensioned and hardened to 40 Rc to withstand heavy loads and deliver predictable performance, cut after cut.

"Your saw gave me 4 times as many cuts as I was getting with my current saw"

C.W. Wade, Foreman  
Professional Welding and Iron Work

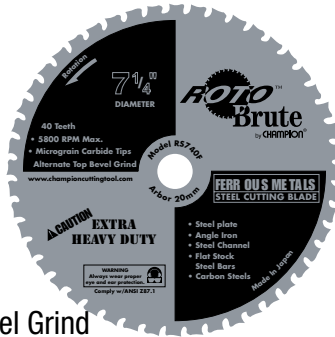

### RotoBrute Carbide Tipped Blades Feature:

- Micrograin Carbide Tips for Long Life and Bur-Free Cutting.
- Color Coded for Easy Identification.
- Hand Tensioned for Distortion-Free Operation.
- Alternative Top Bevel Grind Delivers Fast, Cool Cuts Without Scorching.
- Triple-Chip Grind Produces Fast Clean Cuts.

### RS740F

Material: Ferrous  
Color: Black  
40 Teeth  
Extra Heavy Duty  
Alternate Top Bevel Grind

Our popular ferrous blades RS740F and RS736F are available in a cost savings 12 blade Value Pack. Specify RS740F-VP or RS736F-VP.

## Blade Selection Chart

### 7-1/4" Diameter Blade Fits Saws with 20mm Arbor Size

### RS736F

Material: Ferrous  
Color: Black  
36 Teeth  
Heavy Duty  
Alternate Top Bevel Grind

### RS754NF

Material: Non-Ferrous  
Color: Blue  
54 Teeth  
For Brass, Copper, Plastics  
Triple Chip Grind

### RS748SS

Material: Stainless Steel  
Color: Yellow  
48 Teeth  
Triple Chip Grind

### RS736W

Material: Wood  
Color: Green  
36 Teeth  
Alternate Top Bevel Grind

**WARNING**  
Always wear proper eye and ear protection.  
Comply w/ANSI Z87.1

### BruteLube Multi-Purpose Wax

Specially formulated to reduce friction and heat. Provides a precision finish. Highly recommended for use with RS754NF saw blades for longer tool life and smoother cuts.
